

## Massive Rock

**Durable and very hard stone suitable for projects, where you need massive details of traditional darker stone.** Stone is hand selected and splitted in quarry. We mainly cultivate this stone to no-gap look but you can select look with cement filled spaces between stones, as you can see in photogallery. Pieces of stone we cultivate in more rustic shape with carbide chisels.

Suitable for: stone facade, stone fence, stone wall, retention wall.

**Material price: 1 150 Kč/m<sup>2</sup>** (excluding VAT)
